PECK/JONES CONSTRUCTION

BUILDING YOUR VISION
SINCE 1915

At Peck/Jones, high performance standards were established in 1915 when a young engineer, Clair L. Peck, Sr., founded a construction company specializing in small, reinforced concrete and masonry industrial facilities. Eight years later, Oliver C. Jones started a similar firm working on public buildings and schoolhouses. The two merged in 1986 as Peck/Jones Construction Corporation.

Our founders believed that a builder who worked hard and practiced high ethical standards would prove successful. Today the firm bearing their names is one of the top contractors in the western United States. Though three generations, the company has grown and flourished because we know the Owner's confidence must be earned... every day...on every job.
