Workforce Quality

Complete Project Management

The operations personnel and estimators are the heart of Peck Jones Walter. They are responsible for the success of each project and more importantly, the satisfaction of each client. It is this client satisfaction that continues to position Peck Jones Walter as one of the top construction firms in North America. A Project Manager directs each project team; he has full authority and responsibility for all work and is supported by the entire company. The relationship between the Owner, Architect and Contractor requires cooperation, trust, and mutual respect. The goal of a project team is to be diligent, creative, and timely in all efforts – to contribute our share – and a bit more. Our philosophy has ensured that our customers receive maximum value for their construction dollar.

PECK/JONES Construction and WALTER Construction have served the North American construction industry for more than 200 years combined. With annual revenue in excess of \$500 million, unlimited bonding and award winning safety programs, PECK JONES WALTER has the experience and capacity to meet the varying needs of each client.
